

ETERNAL SOURCE of Hope and Healing

Please be with _____
during this difficult time;
let her feel your presence!

Bless her doctors with wisdom and skill,
and her entire medical team
with kindness and compassion.

Heal her body and quiet her mind;
grant those who love her
patience and understanding.
Guide them as they look for ways
to bolster her spirit and provide comfort
when they cannot visit her
or be there physically.

Allow her to face this illness
and hospital stay
with hope in her heart;
secure in the knowledge that
she is deeply loved.

Watch over her family;
banish fear of what is to come,
and empower them all with grace,
strength and courage for the journey ahead.
