

ETERNAL SOURCE of Hope and Healing

Please be with _____
during this difficult time;
let him feel Your presence!

Bless his doctors with wisdom and skill,
and his entire medical team
with kindness and compassion.

Heal his body and quiet his mind;
grant those who love him
patience and understanding.
Guide them as they look for ways
to bolster his spirit and provide comfort
when they cannot visit him
or be there physically.

Allow him to face this illness
and hospital stay
with hope in his heart;
secure in the knowledge that
he is deeply loved.

Watch over his family;
banish fear of what is to come,
and empower them all with grace,
strength and courage for the journey ahead.
